Description

The 45467 impact wrench from Airpress is the most powerful device with a 1-inch driver. Thanks to the relatively light design and the short axis, you can even work in a limited space. The composite housing and the shortened tool shaft have reduced the weight of the device to 6.5 kg, which greatly facilitates user comfort. The high torque of 4150 Nm means that this key is used in workshops of trucks, agricultural machinery, railways and other demanding fields.
