## Description

---

The Airpress 45406 impact wrench is the lightest device in its class. The weight of 1.24 kg and a compact housing ensure comfort even after prolonged use. Like other professional pneumatic tools from Airpress, this impact wrench has a composite housing with a non-slip handle for better ergonomics. Despite its small size, this key achieves a high torque of 1302 Nm thanks to the use of an efficient Twin Hammer impact system. The impact wrench is equipped with an L / R rotary switch and three-stage power control. The 45406 Airpress impact wrench can be used in tire service and mounting tapes.
