

Automatic condensation drain timer dirt filter 1/2"

Product Images

Additional Information

SKU	36337
EAN	08712418386318
Weight (kg)	0.300000
Length (mm)	100
Width (mm)	90
Height (mm)	140
Air connection (")	1/2
Type condensation drain	Automatic
Voltage (V)	230 V / 50 Hz / 1 Ph
Working pressure (bar)	0 - 16
Maximum ambient temperature (°C)	60
Cable length (m)	2.43

Description

The drain is designed to separate condensate from the air system of your compressor. The drain is activated by an internal magnetic wheel, which opens the relief valve at regular intervals. These intervals can be set on the timer panel via a button. The drain has a test button to test the set function. An explanation of how to set the timer can be found in the manual. The drain is suitable for a compressor with a maximum capacity of 60 m³ / min at a maximum pressure of 16 bar. The suitable ambient temperature of this condensate drain is between 2 and 60 ° C and the capacity of the solenoid valve is 0.6 W.
