

Trolley Jack 22 ton 448 mm dish height

72121

Product details

SKU	72121
EAN	8712418287776
Length (mm)	520
Width (mm)	320
Height (mm)	240
Weight (kg)	50.000000
Lifting capacity (kg)	22000 kg
Min. Plate height (mm)	228
Max. Plate height (mm)	448
Hydraulic	Yes
Lever length (mm)	1250
Wheels	Yes

Description

Pneumatic-hydraulic lift 22T JJ-200 448 mm

The 22T JJ-200 pneumatic-hydraulic lift is a solid and reliable device for lifting heavy vehicles and machines. Thanks to the combination of pneumatic and hydraulic technology, it ensures extraordinary efficiency and comfort of use, especially in intensive working conditions, such as car workshops, service stations or construction sites.

The JJ-200 model offers a maximum lifting capacity of 22,000 kg, making it an ideal solution for handling trucks and construction machinery. The lifting range of 228-448 mm ensures versatility of use, allowing convenient access to vehicle structural elements. The long 1250 mm lever allows for precise operation with minimal physical effort, and the mounted transport wheels make it easy to move the device around the workplace.

Hydraulic-pneumatic lifts are designed for the heaviest cars and devices. The lifting capacity of 22 or 35 tons allows you to handle both trucks, tractors and other heavy agricultural machines. Double mechanism facilitates and speeds up work, and set of pins allows you to adjust the lifting head to the element being lifted, increasing its versatility and comfort of use.

The lift is made of high-quality materials that ensure durability and resistance to intensive use. Its hydraulic mechanism guarantees smooth operation, and pneumatic support speeds up the lifting process, increasing operational efficiency. It is the perfect tool for professionals who need reliable solutions to everyday challenges.

The most important features of the product:

Maximum lifting capacity: 22,000 kg

Lifting range: 228-448 mm

Pneumatic-hydraulic mechanism: Fast and precise lifting

Long lever: 1250 mm for comfortable operation

Mobility: Built-in transport wheels

Durable construction: Resistant to intensive use

Set of pins: Adaptation of the lifter head to various elements

The 22T JJ-200 448 mm pneumatic-hydraulic lift is a professional solution for people who are looking for an efficient, durable and versatile device for working with heavy vehicles. Its solid construction and modern technical solutions guarantee safety and efficiency in all conditions.
