Description

This nail gun (model 45438-5) has a capacity of 100 nails and is suitable for nails with a length between 20 and 64 mm. The nail gun is extremely suitable to use for heavier work such as, grilles for ceilings, light formwork, doors, subfloors, OSB, cabinets, etc. The nail gun has a depth setting, so that the nails do not penetrate when used for thin or soft materials. The nail gun is equipped with an adjustable knob for air relief during use and has a rubber handle for a firm grip. In addition, the rubber handle ensures that the compressed air moves in the cold. The nail gun is equipped with a nose guard (to prevent nails from coming loose unexpectedly). The nail gun has a steel holder for grommet (prevents damage to wire in aluminum of the nail gun) is equipped with a safety rubber to prevent scratches on the material and the charger shows how many nails are still available. This nail gun comes in a sturdy case with accessories and clear instructions. The nail gun weighs 1.6 kg and works at a maximum pressure of 6.5 / 7 bar.
