Jaw span (")	10
Jaw span (mm)	330
Jaw width (mm)	22
Jaw length (mm)	257
Housing material	Steel SC37
Rotating base	360°

Description

With an anvil and a pin to knock things around or to knock and a tube clamp under the jaws, the 70005 vice with a jaw span 330 mm is the ideal vice for large and small jobs. The smooth direction of rotation of the detachable 360 ° rotating base and interchangeable jaws makes the vice versatile. Because the vice has a chrome-plated spindle, we can give a 12-year guarantee.

The vice is of industrial quality, with completely unbreakable steel body construction made of SC37 steel for maximum durability. The Airpress vice is equipped with a large anvil to handle objects with a hammer and the jaws are toothed to get extra grip on the material. There are two handles on both sides to lock the turntable so that you can work safely.
